Sumner Elementary
Math Data for 2014-2015 and 2015-2016

|  | $2014-2015$ | $2015-2016$ | Notes |
| :--- | :--- | :--- | :--- |
| Percentage of <br> Proficiency for the <br> entire school | $31.9 \%$ | $45 \%$ | There is about a <br> 15\% increase in <br> proficiency. |
| Percentage of <br> Level 3s | $9.2 \%$ | $8.9 \%$ | Notice there is a <br> decrease in level <br> 3s, but a huge <br> jump with 4s and <br> 5s. This is <br> evidence that <br> proficiency was <br> increased, and <br> they increased the <br> level of students <br> who were <br> considered high <br> achievers. |
| Percentage of <br> Level 4s | $17.8 \%$ | 27.9 \% | 10 percent <br> increase |
| Percentage of <br> Level 5s | $0 \%$ | $8.9 \%$ | They went from 0 <br> to almost 10\% of <br> the students <br> scoring a 5. Wow! |
